

Pams - Canteen Meal Management Features List 2015

1. Canteen Meal Management System :

General Features:

- The web based PA Canteen Management system provides improved efficiency and accuracy in managing the office canteen's day to day operations and simplifies the accounts of individual employees.
- Company attendance Swipe Cards can be used for this system. This software produces consumption and cost of each employee.
- Employee can also see their current consumption.
- Integrated on PAMS platform with Time and Attendance and Visitor Management.
- The System accounts for the consumption and cost and generates daily, periodically and monthly reports of at Company level, Unit Level, Department and Project levels.
- This also assists in managing the Canteen Vendor.
- Only Night shift Employees be allowed for Dinner.
- As we have Shift and Categories in PAMS, we can use the same to control the meals.
- Feedback System with Reports
